Add Echo 360 To A Canvas Course

The directions below describe how to add an Echo360 link to your left Canvas course menu. And, how to add / update links to individual videos in a module or on a page.

Prerequisite:
Echo courses are automatically created for each academic course each semester.

I. Add Echo 360 To Your Canvas Course .................................................................................................. 1
II. Connect Your Canvas Course To Your Echo Course ............................................................................. 2
  A. What Students See ............................................................................................................................ 3
III. Reset Echo 360 Course in Canvas ..................................................................................................... 4
IV. Add Echo Video Link to Canvas Module or Page .............................................................................. 5
  A. Generate a Private Link for Your Video ............................................................................................ 5
  B. Add Video Link to Module as External web URL ............................................................................... 7
V. Embed an Echo Video on a Canvas Page .............................................................................................. 9
VI. Echo 360 & Canvas Help Resources ................................................................................................ 10

I. Add Echo 360 To Your Canvas Course

a) Login to your Canvas course.

b) On the bottom left course menu click Settings.
c) At the top *click* on the **Navigation** tab.

d) Towards the bottom *locate* the **Echo 360** item.

To the right of the Echo item, under the **three dot drop down menu**, *select* **Enable**.

e) At the bottom *click* **Save**.

II. **Connect Your Canvas Course To Your Echo Course.**

a) In your Canvas course, on the left **course menu**, *click* **Echo360**.

b) Under the **Choose a Section drop down menu**, *click** on your **Echo course**.

<table>
<thead>
<tr>
<th>Connect your Echo360 Content</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Step 1: Choose (or create) a section</strong></td>
</tr>
<tr>
<td>Section</td>
</tr>
<tr>
<td>Select a Section...</td>
</tr>
</tbody>
</table>

- **PRACTICE-ADM-McGrawHillCompuTesting - 001 (Test)**
- **PRACTICE-ADM-EchoTestCourse - 001 (Test)**
c) Select **Link to the Section Home.**

d) Click **Link Content.**

Step 2: Select where you want students to be redirected: Class List page or a specific Classroom

You will see the videos you have placed in your Echo course.

A. **What Students See**

Students will click on the Echo 360 link on the left course menu.

They will see links to your Echo 360 course videos
III. Reset Echo 360 Course in Canvas

When you copy a previous Canvas course to a new course, the new course will have the link to the previous Echo 360 course. To link your new Canvas course to a new Echo 360 course do the following.

a) In your new Canvas course, after you have added Echo 360 (section I) to your course menu, click Echo 360.

b) At the top left click Reset Canvas Link.

c) Read the dire warning and click OK.

Are you sure you want to reset this link? Students will be redirected to the class list for this section until the link is reconfigured through the LMS.

[Warning message]

OK

CANCEL

d) On the left course menu click again on the Echo 360.

e) Under Step 1 click Link a different section.
f) Under the Select a Section drop down click on your new Echo course section.

![Link a different section](image)

- Select a Section...
- PRACTICE-ADM-EchoTestCourse
- Echo360Cloud1 - 001 (Test)
- HDFS 277 - 801 - July 1, 2021

![Link Content](image)

- At the bottom click Link Content.

Your Canvas course will now be linked to your new Echo course section.

IV. **Add Echo Video Link to Canvas Module or Page**

You can add a link to an individual Echo video to a Canvas Module or Page.

A. **Generate a Private Link for Your Video**

a) Login to your Echo360 classes page for your course, find the video for which you would like to generate a link for a module or page. In the bottom right of the video window, click the three dots and select Share.
b) At the top **click Links**, then **click Add Link**.

c) **Make the link private** for your class by *turning off* the **Public access** – *move slider* to the **left**.
- This will also provide analytics for your videos.

d) **Click copy** to **save** the video link **address to your clipboard**.

e) **At the bottom click Done**.
B. Add Video Link to Module as External web URL

a) In a Canvas module, at the top right click +.

b) Under the Add drop down menu select External URL.

c) In the URL box paste the link you copied from Echo.
   a. Type a Page Name.
   b. You can choose to check “Load in a new (browser) tab”

d) At the bottom click Add Item.

e) Make sure to Publish this link in your Module.

f) Click on the link you added to be sure the Echo video opens.
C. Add Echo Video Link to Canvas Page

a) You will need to copy the Public Link to your video that you created in step IV.

b) *Click* on and *Edit a Page* in your Canvas course.

c) *Type text* for your Echo video link.

d) With your mouse cursor *select/highlight* the *text you typed*.

e) On the *tool menu* at the top under the *Insert* drop down menu *select Link* then *External Link*.

f) *Paste the link* to your video in the *Link box*.

g) *Click Done.*

The text on your page will now be a link to your Echo video.

h) *Click Save & Publish or Save.*
V. **Embed an Echo Video on a Canvas Page**

a) *Edit a page* in Canvas and in the content editor and *click* the “plug” icon and then *click View All* to view external tools available in Canvas.

b) *Click Echo360.*

c) *Search* for the *video* you would like to embed.

d) *Click* on the *video*.

e) *Adjust* window size, where to start, etc.

f) *Set video access to Private.*

g) *Click Insert.*
You will see the embedded Echo video on your page.

h) At the bottom right of the page *click Save* or Save and Published. Make sure the page is **Published** and accessible to students.
